About This Game

Riders of Asgard is a fun and challenging Viking BMX game. Unlock new maps and items to upgrade your Bike and Rider, and access previously unreachable places. Riders of Asgard features a full single player campaign as well as local multiplayer to take on your friends!

Riders of Asgard is much more than your average run-of-the-mill, Viking BMX game. It's a historically correct Viking BMX game, with historically accurate Viking bikes and locations.

So go ahead! Be the Biking Viking!

Features

- **Choose Your Path** - Play the level as you see fit and choose your own path to pull off the best tricks and unlock the special bar.
- **Choose Your Style** - Use the gold you earn while playing the game to upgrade your bike and viking.
- **Choose Your Tricks** - While you play, choose your trick-set and use those tricks to earn more points and climb the leader board.
- **Choose Your Opponents** - Take on the world by competing on the various leader boards, or out trick a friend in Local Multiplayer.

-
- **Choose Your Control** - The game has full controller support, and features various Assists you can enable or disable at any time. A controller is recommended but keyboards are also supported.

Title: Riders of Asgard
Genre: Indie, Sports
Developer:
Gobbo Games
Publisher:
Gobbo Games
Release Date: 31 Mar, 2017

a09c17d780

Minimum:

OS: Windows 7

Processor: Quad-core Intel or AMD, 2.5 GHz or faster

Memory: 4 GB RAM

Graphics: DirectX 11 compatible graphics card

DirectX: Version 11

Storage: 2 GB available space

Sound Card: DirectX 11 compatible sound card

[very similar to the first game. hexa turn \(my review can be found here\)](#), down to the sad fact that you can't deselect powerups, use them or use undo, but with enough new mechanics on top of the 'now the ai's trying to stop you' switcheroo to feel fresh, and of course some levels are pretty tricky again, there's also a move counter now, ideally you'd solve levels within those limits, but as long as you or the goals don't get blocked in, you can keep trying, and if you succeed, the next level opens up. if you liked the first game, it's a no-brainer, if you like hex-based puzzle games in general, ditto.. I honestly don't understand all the negative reviews for this game.... I had a lot of fun with the combat. The jennies are difficult until you get dodging down and other special moves. Dodging is extremely essential in this game, it just takes some time getting used to and learning the patterns of enemies, especially some of the later boss fights. I enjoyed the anime fanVotaku humor, even if it was simple jokes here and there. The anime references were good too and I usually don't care for referential humor, but this game gets a pass from me. They were executed well, which is what matters. Nothing side splitting but it got me to chuckle each time. The 'lore' was interesting too, or 'world' whatever you want to call it. The story is simple but I like the world that it is in: where an anime nerd gets transformation girl powers and has a rival and such. And the sexy, crazy bosses. The boss fights were fun and the bosses themselves were pretty fun as characters. The levels are short, I would prefer they be longer but it's nothing I'm gonna knock the game for. The game creators recommend a game pad but I got by just fine with my keyboard.

[I would love to see a sequel.. this game is so dead is deader than my kids who died from measles and polio.](#) pros:

[+british english](#)

[+most poetical dialogs I've ever seen \(in british english\)](#)

[+imaginative cursing \(in british english\)](#)

[+puns \(in british english\)](#)

cons:

[-audio is a bit low quality](#)

[-not challenging enough. Very entertaining](#)

for me this is the best dlc so far but need more pirate decoration inside the house like a pirate flag or a candle or a barrel or a pirate table with a skull and some chairs and something with a parrot so far we have only two swords and a map i can't make pirate atmosphere :(the game is quite nice and enjoyable so i decided to purchase the dlc, but it does not appear in my library. The game crashes at very turn for me. Also, I am sick and tired of the developers(AGEOD) exploiting their fan base and then releasing half-finished games like this one. The fact that you get "(...)" as unit description even after around ten titles released by the developer, becomes just outrageous. Did they really not have the time to put in some flavour and unit descriptions?? No time to type half a para for a unit (of which there are probably twenty five per scenario)?

This game needs a better commitment from the developers. They just cannot pose as "niche game developers" and use that as an excuse not to do elementary stuff while the niche wargamers flock to them out of compulsion as there is no other game which models supply and other realistic factors in such detail yet.. This would make Elon happy. As a fan of DBD I preordered this game but didn't have time to play on release. I tried to play now and there are no players. Can't even refund for some unknown reason, just disappointment all around with this one.. ok this game is awesome now since the Enhanced Edition came out! also the new free DLC adds a lot more replay value.. I'm learning these songs so that when it comes time to marry her I'll play these at our wedding

9/10 would marry Avril Lavigne. Clans is an old school hack and slash action game similar to Diablo. After playing for a while i managed to compile a list of good and bad points which i shall list, i shall point out the flaws and leave the good bits to the end to leave this review on a happier note;

There doesn't seem to be any strategy involved. There are three warrior classes and the "elf" class which is the wizard. and while i enjoy the idea of different fighting styles, there is the Warrior, the Barbarian and the dwarf, which is less cliché more boring when selecting a character, people who prefer long range only have one class and that is the elf class.

The lack of items. The game seems to try and make it out that there is challenge when really it's just unfair, you get two lives and they go quickly as you get surrounded by more and more enemies, i got down to about half health when i encountered a mini boss. I thought he was some form of boss as he was hiding behind the statue so he got the first hit, and he did the most damage out of all the other monsters i fought, this led to my death and i respawned and killed him, this brought me down to four hit points left and he dropped a potion which brought me up to 11, i was then asked to clear out a cottage (so my first real quest) where i found myself swarmed with no healing of any kind and i died again losing my last life and going back to the main menu.

The controls. The controls for moving are straight forward but attacking is the right mouse button which is odd and i was not told this so i had taken a few hits before i figured it out, there are interactable items within the game but there is little to no clue apart from a slight light up of the item. weapons do not have any sort of indication as to what's better or what it requires, there is an axe for example which requires two hands, i didn't know this until i saw that i didn't have my shield equipped anymore. There are also items in the game world that don't seem to have any use, left clicking (which is used for moving and item management) does nothing and the right mouse button swings your weapon.

the writing: this is a minor point but the spelling and wording could use some work it isn't bad but it doesn't scream "in your face bioWare"

Now onto the good points which i'm pleased to say, what this game does well it does -very- well so let's get started:

Sound. The music and sound effects are brilliant and you get the right atmosphere that some games simply cannot achieve.

Introduction. the opening introduction is fully voiced (and voiced quite well i will add) and gives a very retro feel which made me feel quite excited to play this game.

Function. The game downloaded quickly, had no problems getting it to run, and it ran smoothly with no obvious bugs or glitches, it seems this was a main focus of their time and it shows.

so i have listed three bad points (not counting the spelling and writing because what do you expect from a hack and slash diablo clone?) and three good points so it's time to give my final verdict.....

I would -not- recommend this game on its own merits.. Very short DLC, but actually for what it is, I really enjoyed it. Items and weapons within this DLC are pretty cool and just a little breath of fresh air from the base game.

I recommend it if you can get the DLC for cheap, just for items alone.. Good little game!

Highly recommended for the money.

Makes you feel like a real life sneaky sneaky.
